OUR BRANDS

The Brands that we are glad to represent are the result of 25 years of direct experience, along which we have had occasion to use, test, evaluate and select what we consider not just suppliers, but real Partners to better perform Pastry, Gelato and Ice Cream Creations

INGREDIENTS

High Standards, Highly selected Raw Materials, Innovation and Tradition. These are the most important characteristics to define Mec3 and Babbi Brands..

SILICON MOULDS

Top leading manufacturer of Silicon Moulds, Silikomart represents the Worldwide benchmark in the field. Untouchable quality standards, it's goodness has proved by the number of forgery around.

PRINCIPESSA

EQUIPMENTS ! FURNITURES

Technology, Innovation, Simplicity. These characteristics are not available in all Brands, surely they are signatures of the Brands in our selection. Thanks to our partners we are able to supply all food public premises with particular attention to Ice Cream, Gelato shop, Parlors, Bars, as well as manufacturers labs including bakeries, pastries, confectionery.

LucaMari Co Ltd Import and distribute in Thailand and surroundings, Italian products made by Top Leading Companies in Pastry, Bakery, Gelato, Ice Cream, Confectionery. All manufacturers are Certified ISO, HACCP, CE, able to propose our customers all last novelties and trends, always according Worldwide certifications for your (and your customers) safety,

THE REVOLUTION IN GELATO BUSINESS

An authentic, quality gelato that engages all the senses with its creamy and smooth texture. Inviting for its impeccable flavor harmony.

The irresistible freshness of a granita or an excellent sorbet with its crystalline and velvety texture, delicately granular, capable of enhancing all the ingredients.

A versatile gelato, with its soft yet solid texture, that lends itself to being used in a variety of sweet preparations such as gelato bars, cakes, and much more.

Perfectly frozen and blended alcoholic cocktails, with just the right consistency to experiment with new flavor combinations without limitations.

Moulds of the Sessantaquaranta range were developed in order to obtain a more efficient use of the baking surface and to reduce the time for preparation thanks to the optimization of the productivity in a baking mould of the dimension 60x40 cm. The moulds are made of 100% food safe silicone and can be used in the blast chiller as well as in the oven. The range 60 x 40 is ideal for a professional use in the world of ice cream production, confectionery and Horeca.

MACADÒ is a practical, resistant and functional plastic box for macarons. Available in 2 sizes: for 6 or for 12 macarons. It is composed by a transparent cover, and a tray available in 8 design colours. The cover can be closed hermetically with a stable joint. In this way macarons are protected from humidity. Furthermore, thanks to its transparency, the products inside are clearly visible. MACADÒ can be customized with a sticker, a ribbon or any other decorative element used in pastry shops.
